As corporate bankers, Liverpool was the natural choice for our second office in the North West. The City is undergoing a dramatic renaissance, with £3billion worth of major developments in the pipeline. Liverpool has one of the fastest growing airports in Europe - now reaching 50 destinations. And as well as being European Capital of Culture 2008 and a UNESCO World Heritage Site it’s host to two Open Golf Championships in 2006 and 2008.
